For Sale, A Light equal to Gas at one fourth the Cost.

THE PETROLIA OIL WILL GIVE THE cheapest, safest, cleanest and most brilliant light of any Oil in the market. It gives double the light of Kerosene, does not smoke, is cheaper, and is warranted not to explode.

There is no necessity of buying new Lamps; as it will burn in ordinary Kerosene Lamps with slight change.

One trial will convince the most skeptical of its superiority.

A CARD.

HAVING been requested by numerous citizens of Raleigh to run the ensuing election for Mayor of the City, and finding that there does exist a great dissatisfaction with regard to the present incumbent, and after being strongly solicited, I have consented and do through this medium announce myself as an **Independent Republican candidate** for the Mayoralty of the City of Raleigh for the year 1870. I will say no more at present, hoping that a favorable opportunity may be presented for me to address my fellow citizens on this subject.

MISREPRESENTATION—AGAIN.

In yesterday's issue, we animadverted to some extent on an article in the *Standard* of the day before, addressed "to the Congress of the United States," in doing which we characterized the article, as we believe it justly merited, as false, mischievous and malignant, and as designed to carry out a purpose altogether foreign to that which appears on the face of it.

The design of the article we believe to be to alarm the colored people, and the less informed of the whites, and to draw them together again under league influence, preparatory to the next Sommer's campaign, which it is conceded, we believe, they will be forced to meet, and the leaders of the party well know that without some such strategy—some such political galvanism, they stand no earthly chance to perpetuate their power in the State.

Another reason for all this hullabaloo about ku klux, resistance to law, and such stuff, and appeals to Congress for interference in State police matters; as well as for the introduction of the infamous militia bill, (for all these are but parts and parcels of the same plan,) into the Legislature is, to draw off the public mind and distract public attention from the wretched and ruined condition to which, within their short administration, they have reduced the State. The investigation into the frauds of public men, into which the Legislature was forced by public opinion and a few honest men of that body, was likely to divulge facts in regard to the unparalleled extravagance and corruption of these men, which would damn them in the estimation of the people and ruin their party; hence the necessity of initiating some move to divert attention from the subject and hide, until after another election, their crimes from the public eye. To this end the Shoffner bill was introduced into the Senate, and the cry sent up from the *Standard* that the rebellion is again rampant and the Government in danger, and Congress invoked to come to the rescue and save the nation, and, especially the Radical party!

We have said, and we repeat, the article alluded to, in the *Standard*, was false in its declarations and in its insinuations; so false as to be worthy of emanation from the father of lies, himself. The only instances of which we have heard, of detected violators of the law, in this State, going unpunished, are those in which executive clemency has been interposed to screen convicts from the penalty due their crimes. Only a short time ago, three convicted felons were brought to this city from Henderson county—two negroes, one sentenced to the Penitentiary for twenty years, the other for about six or twelve months, and a white man sentenced for about twelve months, and within a few days after their arrival, the two negroes were pardoned and turned loose, and the white man retained to serve out his time.—Hundreds of instances of radicals, or as the *Standard* calls them, "Republicans," convicted in the Courts and pardoned by the Executive, could be adduced, but not one single case where an officer has attempted an arrest and failed on account of resistance to his authority.

As a set off against the assertions of the *Standard*, we quote from a recently published letter of the Republican Sheriff of this County, T. P. Lee, over his own signature, on the subject of lawlessness, as follows: "The unsettled condition of society following the war, and the injuries it wrought to our social condition, are fast passing away, *and people are just as safe here as in any of the Northern States.*" Mr. Lee, as Sheriff, has an opportunity of knowing something of the state of affairs, at least in his own county, and those adjoining, and his testimony is entitled to much credit on this subject.

As a further set off against the false assertions of the *Standard*, in the article under consideration, we quote from that paper itself, of the date of December 22nd. "We need capital in North Carolina, and capitalists may come to our state with as much security as they can visit the different sections of their own country." Contrast this with the language used in the appeal "to the Congress of the United States, on Tuesday morning, and what is the conclusion?—Why, that in the latter a new idea had sprung up—a new brace was to be added to the tottering edifice, and hence, the pen was dipped in gall, and the people of the South must be villified and slandered, and Congress must be invoked, to carry out the new idea; to strengthen the new purpose.

We leave the people to judge what species of retribution is due to a sheet that will thus wantonly and wickedly pervert truth; traduce and slander those who are already pressed to the earth, for the purpose of sustaining a corrupt party that has already ruined the State, and to cloak the vile practices of public men and perpetuate their power, after they have shown every evidence that they are unworthy of public trust.

O, THE BEUATIES OF RADICALISM! A CASE IN POINT.

We noticed in our last issue that a horse drover had five horses stolen from him at Smithfield, on Sunday night last, and that an investigation of the affair was going on likely to result in some rare developements.

The following facts in relation to the case we have from eye and ear witnesses, and they may be relied on as true.

The parties who stole the horses were Charles H. Snead, a young man named Cox, his nephew, and Jesse Yelverton. This Yelverton, it seems, held an intimate relationship with a colored damsel of Smithfield, who stated, on Monday morning, that Snead came to her house Sunday night and after a talk with Yelverton, took him away with him, the girl swearing, on the examination, that she heard Snead tell Yelverton he wanted him to go to Boon Hill, and would give him $100 to go.—Yelverton denied the fact, and said he had not been out of the town, but a witness swore he met him Monday morning three miles out, about day break, coming into town. Two of the horses were found later in the day, tied out in the woods, in the direction from which Yelverton was seen coming.

Some facts that transpired connected young Cox with the matter, and he was arrested, who finding that the chain of evidence was strong against him, made a clean breast of the matter, declaring that his uncle, Charles H. Snead, concocted the plan for stealing the horses, went with him and Yelverton, assisted in getting out the horses, and made him throw the hammer with which they drew the staple of the door, into a well. On this confession of young Cox's, Snead was arrested, and Yelverton made his escape.

Now, who is Charles H. Snead? He is U. S. Assistant Assessor in the Revenue under appointment from Wiley D. Jones, District Assessor; also, militia Colonel of his military district, under appointment of the same Wiley D. Jones, as Major General of Militia in North Carolina. He is also Grand Lecturer of the Heroes of America, under the appointment of Governor W. W. Holden, and was appointed by the same, Justice of the Peace for Johnston county and acted under that appointment for two years, after which he was elected to the same position by the Rads of his township, and held the position at the time he fell, or rather, at the time he was caught. Truly he was a man whom the Radical authorities and the Radical party, delighted to honor.

When Snead was arrested on the confession of Cox, he claimed the right, as acting Magistrate, to try his own case! But this was too bad, and the case was taken before Dick Massey, J. P., brother-in-law to the prisoner, who was obliged, under the evidence, to bind him over to Court, which he did in a bond of only $500. But even this bail could not be given, and Snead was put in jail. On being incarcerated he declared he would not stay there; that he would have every brick of the jail torn down, first. During the time he was in jail, the negroes gathered in front, fired off a cannon, and made other riotous demonstrations; whereupon the Magistrate, this same brother in-law, reduced the amount of bail to $300, and the bond was signed by three sureties who, we are informed, are not, individually and collectively, worth the price of one of the stolen horses, over and above the homestead exemption. Young Cox, the principal witness, was just turned loose, without any recognizance to appear in the case, and, of course, when the trial against his uncle comes off, he will be *non est*.

One remarkable fact, not exactly connected with the case, but interesting on account of it, was related to us. This same charles H. Snead, two days before he stole these horses from the Hotel stables in Smithfield, had, as a Justice of the Peace, publicly outlawed one Miles Draughon, for *horse stealing*! the published notice of which, with Snead's name to it, is now lying before us.

The above are the facts as reported to us by persons knowing to them. The *Standard*, in alluding to this matter yesterday morning, hopes "justice will finally overtake" those thus engaged in horse stealing in Johnston, to which we say, Amen; though from the present state of the case, we see but little hope of it, under the management. We call attention of the District Solicitor to the matter, as one requiring his attention.

Thus we see constantly developing, the effects of the teachings of the famous, or rather infamous, "Legislative Address," and the teachings of the *Standard*, in the article "Work." Such teachings, upon such minds as Snead's and thousands of others, are sure to produce the legitimate consequences of the like here developed; and the article "Work," has not been without its abundant fruit, in the hundreds of cases of rape and outrage that have cursed our State.

A NOTORIOUS BURGLAR ARRESTED.—The notorious negro burglar Henry Young, sentenced to 20 years imprisonment for breaking into the house of Messrs. M. London and Sol. Bear twelve months or more since, was captured Saturday night last. It seems that he had escaped from the workhouse (where he was confined) about a week ago, though no public mention has ever been made of this fact. He was found suspiciously concealed in the residence of Mr. Walker Meares and arrested by the police and confined in the guard house.—Here he was seen Sunday morning by the Sheriff—who, by-the-way, had received no official notice of his escape—recognized and taken into custody and placed in jail where he now lies. According to Young's statement some two or three prisoners escaped from the workhouse at the same time with himself, and yet the fact has not been officially made known to the Sheriff.—*Wil. Journal.*

A WALKING TORPEDO.—A California paper tells how an old lady residing in San Francisco had occasion to spank her little boy. He had been playing about the shavings and had sat on a leaky can of nitro glycerine, the consequence of which was that the first smack the old lady administered caused an explosion, which sent them flying in different directions, and broke all the glass in the room.

DAIRIES AND CHEESE MAKING IN WESTERN N. C.; *A Paper read before the N. C. Agricultural Society, at the Annual Fair, 1869, by N. W. Woodfin, Esq., of Buncombe.*

To the President and Members of the North Carolina Agricultural Society:

GENTLEMEN:—At your request I have hastily prepared a few statements of fact to prove the adaptation of Western North Carolina to the Dairy business.

If climate, soil and water are all favorable to this branch of agriculture, then the case is made out. I take it that all must turn on these three requisites.

1st Climate: While we may improve the soil, and make it what we desire it to be, the climate is beyond our control and we are to conform our crops to suit the climate; we cannot change it.

It is well ascertained that in the warmest portions of the South, this business is impossible because: 1st. The cattle are unhealthy, being subject to many diseases, from which they are entirely exempt in Western North Carolina. 2nd. The food suitable for cattle, (the grasses) do not succeed far South. 3d. The flies and other insects annoy them so as to prevent them from thriving.

I take it for granted, that if the mercury ranges over 100 degrees in the shade, a considerable portion of the day, and above 80 degrees at night, the cattle will not be thrifty. But suppose this difficulty out of the way, the milk, under such circumstances, cannot be kept sweet without the use of ice. In Western N. C. we have all that can be desired in the climate. The dairymen desire to keep the temperature of the milk below 62 degrees. As soon as possible after taken from the cow it must be cooled down to 60 degrees or at any rate to 62 degrees; this is easily done in Western North Carolina, as in the morning and evening when milking is performed, the temperature is little above and sometimes below that point even in summer.

So we find the milk is cooling on its way to the factory, and there it is immediately placed in contact with the coldest water, so as to cool it and allow the animal flavor to escape.

But it is not only necessary to avoid extreme heat; but extreme cold climates are almost as troublesome. The cattle must be closely housed and fed abundantly to sustain life; and to enable them to yield much milk the feeding must be expensive.

Then the manufacture and cure of cheese becomes very inconvenient in freezing weather. In this section of country we have little difficulty in this respect. We find it necessary to house cattle, probably about three months in the year on an average; and with properly arranged pastures, need not feel much except for about four months. In the best dairy countries in the North and East, they must house closely and feed abundantly, six months in the year; and yet in summer their climate is hotter than ours by 10 or 15 degrees. We are subject to neither, extreme of heat or cold. In the country on the Blue Ridge and West of it in this State the mercury rarely ever rises above 85 degrees, and is only occasionally above 80 degrees, and that only for a few hours during the day.—The nights are generally as cool as desirable for any purpose of the dairy man. I am not prepared to say how far down the country this branch of business may be relied on, but suppose it may succeed as far East as the Yadkin, and in the hill country even East of that, as in Randolph.

Our winters are not less favorably than the summers. It is rare that we have the mercury range as low as zero, and never more than 3 or 5 degrees below. A comparison between this and other sections as well in winter as summer, may not be unprofitable in considering this branch of the subject. This I will do by copying a portion of an article prepared by Dr. H. B. Gatchell, which, though written with a different purpose, throws much light on this subject.

That the reader may judge of the merits of the climate of Asheville, I offer the following comparison between that and Dijon (in the Valley of the Rhone, East France.) It will seen that the two places differ less in climate than any one place often does in two successive years:

Places,	Jan.	Feb.	March	April	May	June
Asheville,	36.5	39.7	46.1	54.5	61.5	69.7
Dijon,	33.6	36.7	46.2	51.1	60.6	66.0
Places,	July.	Aug.	Sept.	Oct.	Nov.	Dec.
Asheville,	73.2	71.9	65.5	54.4	46.0	39.3
Dijon,	71.1	72.5	62.4	53.8	45.7	35.8

The climate of the United States (except a narrow belt near the Pacific,) and especially that of the country between the Rocky Mountains and the Atlantic is a climate of extremes. Western North Carolina is less subject to extremes than most of this area. The mercury seldom rises above 92 degrees. The greatest height in the four of Summers of which we have a record being 97 degrees. The extreme heat but little exceeds that of Mackinac, famed for the coolness of its Summers, though there is a much greater number of warm days than at Mackinac. But the coolness of the nights is such after the warm days as to require a blanket; the cold very rarely reaches Zero, and the snow seldom lies on the ground more than a few hours at a time. The mean Summer temperature is that of Connecticut, on the shores of the sound, but with no single extreme of heat as great as in Connecticut, and while it is but one degree greater than that of St. Paul, its extreme heat is from 12 to 15 degrees less. The mean winter temperature (22 degrees above that of St. Paul, with an extreme cold of from 40 to 50 degrees less.) is about 4 degrees above that of South-western Missouri. It is that of Southern Kentucky and Northern Arkansas, but with no extreme of cold so great as the latter.

Soil.—Having found the climate all that we could desire, I come now to consider the soil.

That we have the soil combined with the climate, well suited for grazing, no one at acquainted with the country will deny. It may be doubted if any considerable portion of the Western counties will fail to produce fair pasturage, if taken fresh and before the grain growing and shallow plowing (so common in this section) have exhausted its fertility. I know little land in this section that will not pay in grass if sown after one or two years' cultivation. Indeed we have few old fields that do not readily take in grass and clover with the least top dressing, and especially after subsoiling.—This by the way, is our only cheap and sure mode of renovating our exhausted lands. I have never failed of success in such a case and at greatly less cost and loss of time than I had calculated. I have been speaking of our worst soils while largely the majority of our lands are vastly better and hold out inducements on every hand to sow down our best low grounds in timothy, or in timothy with orchard grass or clover.

These lands will yield from one to two tons of dry hay to the acre without manure; and with it, will give three tons and in favorable seasons more. Col. Guthey, in Haywood county some years ago cut over four tons. Mr. W. H. Smith, in the present season, cut over four tons on an acre. On such meadows the after growth is most valuable, I suppose worth more than the expense of harvesting the crop. Next in value to these lands I reckon the rich mountains. The coves, and often the ridges to their summits are as rich as the best low lands, with a climate even more favorable for cattle. These lands I regard as the best pastures for cattle or any other stock, always well watered and exempt from the annoyance of flies. My mountain grazing farm is probably 3,000 feet above tide water, I have had live stock of all kinds on it since the year 1856, and have never yet seen one of the small yellow flies that annoy horses, cattle and other stock in most localities.

On this farm the Elk Mountain Cheese Factory was established in 1868, the first in the South as far as I know. We have one other on the same mountain and one on Swannanoa, six miles distant with a prospect of half dozen more in Buncombe by next season. Capt. David Edwards, of Onida county, New York, who was highly recommended to me by Gov. Seymour, and who had for four years, superintended the "Deerfield cheese factory" near Utica, at which the milk from the Governor's farms had all been manufactured, established and for two years managed the Elk Mountain factory, and bears testimony to our superior advantages in climate, soil and water. He "brought with him" among others, Mr. Haddon an Englishman, of great experience in dairying and cattle raising; and they concur in the opinion, that our climate and soil are admirably suited to the grasses as well as the root crops so important for cattle in winter.

On the 27th of January, 1868, Captain Edwards rode with me through my pastures and saw my cattle yet living on the grass, without other feed, and pronounced them in better condition than theirs in Central N. Y. which had been for two months in close feeding in stables. He, and Mr. Haddon, yet concur in the opinion, that we can winter cattle on one half that is required in Oneida County, New York, and that we can raise all the necessary food at much less expense. Two years ago I spent three months in the North and East, looking closely into this subject and found no unmanured pasture at all equal to the one I left at home; this opinion was confirmed by Prof. Kerr, who had, with Gen. Vance, ridden through my pastures, the same season, and afterwards spent a month North and East, without finding a pasture equal to it. This pasture is made on land for which my brother and I had paid two dollars per acre in 1856, not cleared.

On these lands we had kept cattle, horses and mules for seven years, without shelter and without any food except what they procured from pastures for 12 calendar months in each year. Except for a few weeks in one winter. The horse that I now ride was never fed till brought into use, and so of the last mules sold from these pastures. These grounds five miles North of Asheville are not superior to much of our mountain country, and not equal to much of the mountain lands of Mitchell, Yancey, Ashe, Madison, Haywood and other counties bordering on the Tennessee and Virginia.

All the grains grew well on our best lands, and fully when manured, and especially if subsoiled, but as little grain is required for dairy cattle (except for a few weeks when coming in) I have not devoted any space to the culture of grains.

The grasses grow every where unless prevented by bad farming or the growth of brush, and the longer the land is kept in grass the better it thrives, and the more cattle it will bear. Thus we save much expense for labor which is now so difficult to obtain and we save the exhaustion of our lands which is sure to attend a succession of grain crops. It is fair to say that two acres of good pasture grass will carry one cow through the grazing season, and one acre in hay and roots will winter her. Three acres being the space generally allowed to each grown cow. I prefer, however, to allow that quantity for summer grazing, and one acre in addition for winter feeding, which will be more than sufficient except in an extraordinary year of drouth.

Our dry season generally occurs about July and August just at the time to interfere with the filling of the corn while the hay crop is harvested before this dry season, and though the drouth injures the pasturing for a short time, the grass will spring up, on the return of the Fall rains, and often keep up good grazing till Christmas.

If you allow four acres of ground for each grown cow, and if you pay two dollars per acre in the wild state or ten dollars per acre set to grass, you'll have forty dollars invested, and if you pay forty dollars for a good milk cow you have eighty dollars invested for each cow. This sum at ten per cent leaves eight dollars annual interest, and if it cost twelve dollars to prepare the food and attend to the winter feeding, you have twenty dollars per annum, and if the milking cost ten dollars we have the entire cost of thirty dollars, the annual expense of each cow—this will be over the actual cost unless she gives milk in winter, and in that case the milk will meet the additional expense. A good dairy cow will give two gallons per day, for 200 days or for the season, will give 400 gallons of milk, which will make 400 pounds of dry cheese of fine quality (not skimmed) as most of the northern cheese is, and worth with us twenty cents per pound or eighty dollars gross. Fine cows will yield five hundred pounds of cheese per annum, while ex raordinary ones, will give six hundred pounds. No cow should be kept for the dairy that will not pay from forty dollars to fifty dollars net. We can make cheese at less cost per pound than beef, while it brings four times as much.

I suppose we have some 6 or 7 millions acres of land, suited to this business and probably as much as four millions of good quality.

I say there is now in a state of nature, rich grass producing country in Western North Carolina enough to raise all the beef and mutton, butter and cheese that the entire South will require in all time, allowing us to ship abroad more than half the cheese which may be made. I do not say that our soil is equal to that of Kentucky, or some other sections of the West—but they want our climate and water; we may not have a better summer climate, than portions of New England, but our winters are greatly milder and our soil is generally better, while our lands do not cost one tenth of the price. Our highest mountains including the Black, are generally covered with a dark and rich soil and luxurious growth, while theirs, and especially the White Mountains, are generally barren, and the summit consists of uncovered rock. I need not labor to prove that this broken country abounds in springs of the coldest water, generally ranging from 48 to 54 degrees and 45 degrees, whilst 60 to 62 degrees is all that is necessary to keep every thing sweet. We require no ice, while in central New York it is used extensively from necessity.

Mr. President, if I am correct in these statements (and I think they cannot be questioned) it will be seen that any one desiring to make an investment and to engage in the dairy business, can find no portion of the United States in which the same amount of capital will pay him as much as in Western North Carolina.

Much of the lands devoted to dairying in central New York cost from $100 to $150 per acre, and those on the Hudson and Connecticut rivers cost much more, while little of the land that I am describing would cost $10 per acre, and much of it can be bought at half that price even when set to grass.

THE RED RIVER REBELLION—DECLARATION OF INDEPENDENCE—RUPERT'S LAND AND THE NORTH-WEST TERRITORY—A NEW NATION.

A special dispatch says that the Declaration of Independence of the provisional government of Rupert's Land and North-west Territory was received at Red River by to-day's mail, signed by John Bruce, president, and Louis Reill, secretary. The document is quite voluminous. Its preamble recites that the republic authority commands the obedience and respect of its subjects; that people when it had no government is free to adopt whatever form it sees fit; that the people of Rupert's Land have heretofore respected the authority of the company of adventurers known as the Hudson Bay Company, which circumstances had placed over them, and that this government was far from answering the wants of the people; that the government having abandoned them by transferring to a stronger power the sacred authority confided to it, the people of Rupert's Land and the Northwest Territory become free from allegiance to said government; that they refuse to recognize the authority of Canada; that by sending back McDougall and his companions, coming here in the name of Canada to rule them with a rod of despotism, they have but acted in conformity to that sacred right which commands every citizen to resist enslavement; that they will continue to oppose the establishment of Canadian authority under its announced form.

The proclamation concludes as follows: Furthermore, we do declare and proclaim, in the name of the people of Rupert's Land and Northwest Territory, that we have established a provisional government, and hold it to be the only lawful authority now in existence in Rupert's Land which claims the obedience and respect of its people; that, in the meantime, we hold ourselves in readiness to enter into such negotiations with the Canadian government as may be favorable to good government and the prosperity of this people. In support of this proclamation, relying on the protection of Divine Providence, we mutually pledge ourselves on oath, our lives, our fortunes, our sacred honor to each other.

The Press correspondence states that the offer to treat with Canada is on terms which the Canadian government will not be likely to assent to. The real programme of the leaders is a far more radical one, but as the English speaking population have as yet no delegation in their council, they do not want to announce it until the co operation and unity of the whole settlement has been secured, after which they will make a bold strike for independence.

Colonel Dennis, Surveyor General of the Dominion who had organized the Indians in favor of McDougall, has formally disbanded his forces, and in a proclamation ordered the loyal party to cease further action until an appeal to arms is made.

THE CHINESE AS HOUSE SERVANTS.—We have had glowing accounts lately of the admirable qualities of the Chinese as house servants, but there seems to be an obverse side to the picture. The New York Mail prints the following extract of a letter from a lady who recently went to San Francisco, in which this matter is treated:

"I must tell you about the Chinamen.—They are very numerous, very industrious and very avaricious. They will leave you at any moment if they are offered twenty-five cents more than you are giving them; no matter what you are doing; whether you are sick or have a house full of company is all the same to them. My sister had a splendid servant; he was a first-rate cook, and perfectly neat. Some one offered him more wages and off he went. She remonstrated with him, but it was no use. 'Me get you one better good boy as me,' he said, and that was all he would do.

Another lady had one that she would not part with at any price, as he understood housekeeping thoroughly. All at once, while a child was ill, he said he must go home to China, but he brought another man "so better as me." He sailed last Wednesday, and on Tuesday night the family was robbed of all the silver. They think it was arranged between him and the new boy, but cannot prove it.

Some of the Chinamen are very apt to learn; show them once and they do not require a second telling, but a great many are very stupid and dirty. Servants are worse here than in New York, and that is entirely unnecessary. Everybody complains of servants, and change from white to Chinese to white again, without bettering themselves.

An extraordinary phenomenon was recently witnessed in Carlisle, England, consisting of a shower of what may best be described as small spiders, resembling the ant in form, but of much smaller dimensions. They were of a dark mahogany color and bright surface, and came down in countless numbers in the forenoon.—Spinning upon an extensive scale was instantaneously set about, and in a wonderfully short time the railings in front of houses and all similar projections were festooned with glittering lines of web arranged all horizontally and of many yards in length, and without the transverse lines usually seen upon spiders' webs. The threads appeared whiter and more visible than the ordinary spiders' web, and were evidently very glutinous, for the work of capture immediately began, and innumerable tiny insects forthwith fell prey to the invaders.

Quite a number of old maids and other females are now turning up in different parts of the country, to whom, according to their own stories, Mr. George Peabody, in bygone times, offered his hand in marriage. One of them positively refused the millionaire because she was already dead in love with a poor young man, and others rejected him for other reasons equally beautiful and honorable. It appears, however, that they all kept an eye on him as long as he lived; and it seems that, to the last, he treasured up in his heart the thought of his love and devotion to each of them. It is touching to read such stories, and it is pleasing to feel assured that none of them will now be contradicted.—*N. Y. World.*

PRATT'S "ASTRAL" OIL.

UNLIKE MANY OTHER ILLUMINATING Oils, is *perfectly pure*, and free from all adulterations or mixtures of any kind. It emits no offensive smell while burning, gives a soft and brilliant light, and can be used with the same assurance of safety as gas. Chemists pronounce it the *best* and *safest* Illuminating Oil ever offered to the public; and Insurance Companies indorse and urge upon consumers the use of the "Astral" Oil in preference to any other. It is now burned by thousands of families, and in no instance has any accident occurred from its use; a lamp filled with it, if upset and broken, will not explode. To prevent adulteration, the "Astral" Oil is packed only in the Guaranty Patent Cans, of 1 gallon and 5 gallons each, and each can is sealed in a manner that cannot be counterfeited. Every package with uncut seal we warrant. Be sure and get none but the genuine article, Pratt's "Astra." Oil, for sale by dealers everywhere, and at wholesale and retail by the proprietors.

UPWARD AND ONWARD!!

WHY IS IT BEST TO INSURE IN THE

BROOKLYN LIFE?

BECAUSE,

AMONG OTHER REASONS, IT IS THE ONLY COMPANY IN THE UNITED STATES WHICH PRESENTS THE GREAT FEATURE OF GUARANTEEING DEFINITE

CASH SURRENDER VALUES,

IN CASE A POLICY IS FORFEITED FOR NON-PAYMENT OF PREMIUM.

ALL POLICIES

ARE non-forfeitable after two full Annual Premiums have been paid.

The policy-holders of this Company may travel or reside where they choose—anywhere on the Globe.

The BROOKLYN LIFE has paid, and now pays to its policy-holders, LARGER DIVIDENDS than ever before paid by a Life Insurance Company.

DIVIDENDS ARE PAID IN CASH,

or applied to the permanent increase of the policy, or left with the Company to accumulate at interest, in either way, at the option of the policy-holder.

New top buggy, W. H. Jones.

Change of schedule, R. & G. R. R.

Music Teaching, apply at the N. C. Bookstore.

NEW YEAR'S GIFTS.—We notice in the shops and fancy stores a goodly array of articles suitable for New Year gifts, which can be procured by those desirous of availing themselves of the occasion to bestow little momentoes and keepsakes on friends and relations, or who may be anxious to repair any neglect on their part, last Saturday, in this respect.

THE MEETING IN CHATHAM.—We hope the citiens of Chatham will turn out in full strength on Saturday January 8th, 1870.—Let the people speak and tell the members of the Legislature their opinion on the measures now before them. Chatham will be heard and heeded by the people of the State whether she is by the Legislature or not. Let such men, renowned for their abilities as Gov Rencher, Mr. Manning, Gen. Jackson and others speak out for Chatham and the State will weigh well what they have to say.

The Chatham Educational Association will hold it next session at Haywood at the head of the Chatham Railroad on Thursday 13th January 1870.

The Introductory Address will be delivered by Rev Robt. B. Sutton, A. M., Principal of Locust Hill Female Seminary, and also addresses by, A. H. Merritt, A. M., Principal Cary Schools, Wake, Col. J. E. Rheim, Principal Belle Air Academy, Craven county, and H. A. London Jr. Esq., of Pittsboro.

The hopitalities of the village are tendered to delegates.

The N. C. R. R., R. & G. R. R. & Chat ham R. R. will pass delegates at half fare and doubtless the various other roads of the State will do the same.

MASONIC.—There will be a called meeting of Hiram Lodge, No. 40, A. Y. M. this (Thursday) evening, at the Lodge Room. Members are requested to be punctual in attendance, at the usual hour.

SALE OF LOTS.—On yesterday eight city lots, in Western Ward, in the neighborhood of Mr. Askew and James Harris, were sold at public auction, by James Litchford, Crier, and brought the following prices:

Fronting on Cabarrus street—

No. 1, to C. A. Gaylord at	$335
2, " Thomas Lee,	575
3, " T. H. Briggs,	500
4, " Sam'l. Merr ll,	770

Fronting on Lenoir street—

No. 1, to W. H. Ferrell, at	$365
2, " Joseph Watson,	360
3, " T. H. Briggs,	360
4, " Rufus Harrison,	545

The whole amounting to $4,310, which is a very satisfactory result, as the lots were only one-fourth acre each, one of them having a small cabin on it, another having a stable and well—the others were unimproved.

R. G. Ivey will very soon open a Grocery Store on the premises of W. G. Riddick about 8 miles Northeast of this city.

The business will be conducted by W. G. Riddick, as agent.

Persons can be supplied with everything in the grocery and provision line upon the most reasonable terms.

PAID BY THE ÆTNA LIFE INSURANCE CO., through the hands of W. H. Crow, General Agent, for the State of N. C., and south of the James Two policies upon the life of J. A. Moore, of Raleigh, No. 17,296, $10,000; No. 19,416, $5,000. This is but another illustration added to the many already made known to the public, of what this old and reliable Company is doing in our State.

The following note is appended by permission:

MR. CROW:—Please accept my thanks for your untiring energy and perseverance in procuring for myself and child, the amount due us, from your Company, also my appreciation of your promptness and kindness in our behalf.

Very Respectfully,
MRS. JAMES A. MOORE.

Raleigh, Dec. 14th 1869.

In Wilmington, on Monday last, a little son of Mr. Springer, was accidentally shot in the cheek by the discharge of a pistol in the hands of a young friend. The wound inflicted is painful though not serious.

We learn from the Wilmington *Journal*, that Mr. A. Lesesman, who was so dangerously injured by a colored man in that city last week, is now pronounced out of danger by his physician.

We understand the following petition has been forwarded to Maj. Jones, for the position of Assistant Assessor for Johnston county, which, it is supposed, may be made vacant by the late *faux pas* of the present incumbent:

"*To Maj. Wiley D. Jones, Assessor of the 4th District, N. C.:*

Your petitioner, Benjamin Sellers, a man of color, respectfully represents that, owing to some little suspicion against one of the members of our party for stealing horses, now holding the office of Assistant Assessor for Johnston county, and that, consequently said Assessor may be removed from office and another be appointed; your petitioner would respectfully represent, that he is no horse thief, and if appointed Assistant Assessor, will discharge the duties of the office with an eye single to the glory of the party and the good of our cause. And will ever pray, &c."

MEETING IN PITTSBORO'—CITIZENS OF CHATHAM RALLY!

There will be a meeting of the citizens of Chatham, at the Court House, in Pittsboro', on Saturday, 8th January, 1870, to consider the bill now pending in the Legislature, and other matters affecting the county.

It is hoped that Gov. Rencher, Gen. Jackson, Mr. Manning, Maj. York, J. G. Rencher, H. A. London, Esqs., and others will address the meeting.

MANY CITIZENS.

The Sachet petticoat is the elegant notion of the moment in London. It is made of a light sort of fl noel, and lined with silk, pink or green, blue, mauve or cerise-colored, quilted and scented with violet powder, exactly like a handkerchief or glove case. Morning gowns are also made in the saya style; they are perfumed dresses.

ROYAL SCANDAL.—The Princess Esterhazy received a severe castigation in the Vienna newspapers. Her own daughter—the Countess Bathyany Apraxin—who, it will be remembered, was cast away by her mother, nine years ago, because of her unfortunate marriage, appeals to the public, in a lengthy letter, for the custody of her children. Promising with the acknowledgment that she is sorry for the step which she took, she affirms that had she been properly treated she would long since have returned to her home and family. Instead of extending her hand, the Princess turned a deaf ear to all her entreaties for assistance. "You are unworthy," she says, "to receive news of your children." In obedience to the wishes of Princess de Metternich, the countess finally quit the stage forever, and for four years led a calm respectable life.—She made three appeals to her mother for the privilege of repairing her wrong.—"Each time they replied to me with a humanity without example, that all that was not sufficient. My mother, not satisfied with wringing my heart, endeavored two years ago to punish me physically. She took back from me at that time 200 florins out of the small monthly allowance of 700 florins which she gave me. I resisted this act of injustice, but again, and as before, in vain. She would not yield, and assigned for cause the debts contracted by my brother." A year ago, the remainder of her monthly allowance was withdrawn, and the Countess was compelled to sustain life upon haricot beans and potatoes, "watered by my tears." The letter also charges the Princess with neglecting to visit the grave of her husband, and concludes with the threat "the most venomous assertions are held in reserve."

EIGHTY SIX YEARS AGO.—In his history of Kentucky, Judge Lewis Collins says: "In 1783, Daniel Brodhead began a new era by exposing goods from Philadelphia for sale in Louisville. The merchandise had been brought from Philadelphia to Pittsburg in wagons, and thence to Louisville in flatboats. The belles of our 'forest land' then began to shine in all the magnificence of calico, and the beaux in the luxury of wool hats."

DISCOVERY OF CURIOUS FOSSILS.—In quarrying a limestone ledge, in the town of Aurelius, Cayuga county, New York, a short time since, a layer of sandstone was found, which quarried out in nearly square blocks of almost uniform size, and which are composed of what was once white sand and marine shells, interspersed with bones of animals, fish and reptiles. Many of the shells are of species which are never found now, save in a fossil state. They are larger and of greater variety than the shells usually found in this manner. Among the shells, bones, &c., a number of whales' teeth have been found also.

We clip the following from the Wilmington *Star*:

During the indiscriminate firing on the streets Christmas night, a rifle ball whizzed past the head of a lady who was standing on the upper piazza of a house of Fifth-street, between Dock and Orange, went through the window and in close proximity to the head of a gentleman who was sitting in the room, and finally buried itself in the wall just behind him. This was a narrow escape on the part of both lady and gentleman and shows the great danger of serious results from discharging fire-arms in the public streets.

We happened to be at the general depot of the North and South Carolina Roads and were surprised to see so much freight on hand. In cotton alone we learned that there were over five hundred bales waiting shipment over the North Carolina Railroad, much of this cotton is detained over here two or three days waiting trains to take it off North. This ought not to be the case. When shippers have to pay 1½c. per month for cash to purchase cotton, they cannot afford such delays in transit.—We learn for weeks past the detention of freights from the same course has existed at this place, and that the business of the Charlotte, Columbia & Augusta Railroad is limited by the capacity of the North Carolina Railroad to remove the freights.—Why do not the Directors of the North Carolina Railroad, authorize their President to buy cars and engines sufficient to remove the freights as fast as they can be delivered? Much of this cotton comes from Columbia, Augusta and other points where competition exists and the inability or any one road to move the freight drives them off the entire line and entails great loss upon the roads more fully equipped.—*Charlotte Observer*.

BIRD'S-EYE VIEW OF NEW YORK CITY.—Population about 1,000,000, and one-half were born in the United States, and the other half in foreign countries, of forty different nationalities. Four million barrels of flour and 9,000,000 bushels of wheat are brought in every year; number of animals received at the markets in a year, including beef cattle, milch cows, calves, sheep and swine, is 2,776 492; city meat bill for one year is over $30,000,000. There are 700 bakers, 1,400 butchers, and 2,600 grocers who find occupation in furnishing food for the people. Not only meat but drink must be had for our population. An aqueduct, forty miles in length, costing $30,000,000, pours into our reservoirs 60,000,000 gallons daily. The total length of the Croton main pipes now laid is over 313 miles, and the water has been introduced into 66,925 dwellings and stores, 1,617 manufactories and 307 churches.—The yearly sum paid for water rents is $1,319 544. Tea and coffe to the amount of $30,000,000 are annually brought to the city. The money spent for intoxicating liquors is variously estimated from $38,000,000 to $68,000,000 a year.

A BRIDEGROOM GETS DRUNK, AND THE "BEST MAN" MARRIES THE BRIDE.—The Port Hope *Canadian* says that a couple residing in the rural districts, not far from town, were engaged to be married, and were "called" three times in one of the town churches. On the day appointed for the celebration of the ceremony which was to "make this twain one flesh" the happy couple came to town arrayed in all the glory of new store clothes, bringing with them a brother of the bridegroom, who was to officiate as "best man," and who, the result proved, was entitled to that character. Leaving the blushing dame l in charge of his brother, the intended husband adjourned to a bar room to get "something hot" to cheer his spirits under the trying ordeal through which he was to pass. Here he met some friends, and amid the congratulations with which he was overwhelmed, partook of more than was necessary for the purpose of elevating his courage to the proper time, and soon became oblivious to all subluuary matters—wedding party, bride, prospective domestic bliss, and all. After waiting a reasonable time for his re appearance, his affianced and the rest of the party grew uneasy, and finally an expedition was organized to go in search of him. They discovered him in the tavern in a comatose condition, and reported that fact in the proper quarter. The bride bore up bravely under this trial, declaring that she didn't care a cent, he was a good for nothing drunken wretch, and she was glad to get clear of him. Moreover, she was not going to be humbugged that way out of getting a husband; she came to town to be married, and married she was determined to be—to the first man that would take her. Rather than see the girl disappointed about a trifle like that, the brother, who came to do the "best-man" business, volunteered to be her victim himself. The bargain was soon made, and off he started for a license, returning in a short time, when they were married and started for home, leaving the other individual to enjoy his little spree as best he could. The affair has created no little talk and much merriment among those acquainted with the facts, and the intended husband is now having a rough time among the wags.

A PHILANTHROPIST IN HUMBLE LIFE.—The Nottingham (Eng.) *Express* records the death of one Joseph Shardlow, who had worked for hosiery firms in that place for sixty-one years, and adds that although he had a large family to bring up—nine sons and a daughter—he took in and trained with his children at different times no fewer than eighteen orphans—an example of philanthropy on the part of a workingman which reminds the wealthy that they may learn something worthy of imitation from "the simple annals of the poor."

VALUABLE PROPERTY FOR SALE.

WILL BE SOLD TO THE HIGHEST BIDder, on the 15th day of January next, at the Court House door in the Town of Louisburg, the valuable property known as the "Pierce Mills" with EIGHTY EIGHT acres of land attached. This property is located in the Eastern part of Franklin county, near the "Portis Gold Mines" on "Sandy Creek"—a NEVER FAILING STREAM. The Mills are in excellent condition and has an extensive and profitable patronage. The situation is an excellent one for a Cotton Gin and a Store and with these added the property would prove a fortune to any energetic man in a few years. The Gin and Store Houses could be put up at very little cost, as there is an excellent Saw Mill attached to the other Mills with an abundance of timber on the land, belonging to the property. For further particulars apply to Mr R. M. Pierce, who resides at the Mill, who will take pleasure in showing the property. Terms made known on day of sale.

DR. LAWRENCE'S

Highly Concentrated Compound

FLUID EXTRACT OF

Koskoo!

THE GREAT HEALTH RESTORER!

NOT A SECRET QUACK MEDICINE—FORMULA AROUND THE BOTTLE.

Prepared Solely by

J. J. LAWRENCE, M. D.

ORGANIC CHEMIST,

NORFOLK, VIRGINIA.

☞ Beware of Counterfeits. See that Dr. J. J. Lawrence, Chemist, Norfolk, Va., and the word KOSKOO, is BLOWN ON THE GLASS of each bottle. ☜

Koskoo is endorsed by the best physicians everywhere. Read the following from Dr. Tillery, a successful practitioner of many years standing in the Old North State:

Rocky Mount, Edgecombe Co., Sept. 18, 1869.

DR. J. J. LAWRENCE—Dear Sir: I have used your Concentrated Fluid Extract of Koskoo in my practice with the *happiest results*. I find it to be a *powerful Liver Invigorator Blood Purifier* and *Nervous Tonic*. In all diseases of the *Liver, Scrofulous Syphilitic, Nervous Affections*, it is a *remedy of immense value*; in fact, in almost every variety of Chronic Disease its use is indicated. Hoping you may meet with the success which you deserve as a manufacturer of *reliable* medicines, I am sir, with much respect your obedient servant,

R. C. TILLERY, M. D.

From Dr. Fentress, an accomplished and experienced physician.

Princess Anne Court House, Va. Sept. 13, 1869

J. J. LAWRENCE, M. D.—Dear Sir: I have carefully examined the formula, as well as the Therapeutic properties of your Koskoo compound, *and have prescribed it in some stubborn cases of Chronic Liver Affections Dyspepsia, General Debility, &c., and always with the most gratifying results.* I find it to be a splendid *Tonic Alterative, and Hepatic* combination, accomplishing its constitutional effects *without the slightest debility*; in fact it *gives fine support to the General system* while its alternative effects are being produced. *I cheerfully recommend its use to the public.*

Yours, truly,

T. F. FENTRESS, M. D.

Koskoo cures SCROFULA IN ITS WORST FORMS. From Mr. A. W. Mills, a prominent and well-known merchant of Norfolk, Va.:

No. 11, Main St., Norfolk, Va., Sept. 15, 1869.

DR. LAWRENCE—Dear Sir: Your Koskoo has worked wonders in my family. My daughter has been a sufferer from scrofula since childhood. She lost thirty-one pieces of bone from her ankle, several from her arm, besides having ulcers in several parts of the body. Whilst in this condition she commenced taking your Koskoo—IT ACTED LIKE A CHARM ON HER—UNDER ITS USE THE ULCERS GRADUALLY HEALED, AND HER GENERAL HEALTH GREATLY IMPROVED. It certainly saved her much suffering, and perhaps her life. I regard Koskoo a *specific* for all scrofulous affections. Your Koskoo also cured my wife of dyspepsia, from which she suffered greatly. SHE IS NOW IN BETTER HEALTH THAN SHE HAS BEEN IN FIVE YEARS.

With the highest regards, I am gratefully yours, &c.,

A. W. MILLS.

KOSKOO, THE GREAT INVIGORATOR.—Read the following from the Rev. Joseph E. Martin, pastor of Wesley Chapel, Portsmouth, Va.:

"This is to certify that myself and wife have used Dr. Lawrence's Koskoo, and can testify to its beneficial effects. Previous to taking it we were in a condition of debilitation—had no appetite, and suffered from sudden and often violent attacks of headache and nervousness. Two bottles of Koskoo has improved our general health, and we regard it as invaluable, and most cheerfully recommend it to all who have need of an *invigorator*. Yours, &c.,

JOSEPH E. MARTIN.

KOSKOO!

CURES CHRONIC RHEUMATISM.

Norfolk, Virginia, September 7, 1869.

DR. J. J. LAWRENCE—Dear Sir: My son has received so much benefit from your wonderful Koskoo that I cannot refrain from expressing my gratitude. I had tried almost everything without benefit. I believe, in all sincerity, that your Koskoo is AN INFALLIBLE REMEDY for the disease from which he has suffered, and, so far as I can learn, has never failed. If you only knew the immense amount of suffering that he has undergone, then you could conceive the value of such a remedy as Koskoo—THAT SURELY CURES. The great amount of good it is now doing among us is inestimable.

With much gratitude, I am respectfully yours, &c.,

MRS. M. E. A. NELSON.

DR. LAWRENCE—Dear Sir: Having been treated by several skilful physicians for Dyspepsia, Chronic Disease of Kidneys, General Debility, &c., without benefit, as a last resort I commenced the use of your Koskoo, and am pleased to say that under its use my health has been entirely restored.

I am, sir, with much respect your obedient servant,

O. B. MEARS,

No. 5 Market St., Norfolk, Va., July 6, 1869.

Pacific, Franklin Co., N. C., Sept. 11, 1869.

This is to certify that for a long time I suffered very much from inaction of the liver and constipation of the bowels and tried several remedies, but received no benefit until I commenced taking Koskoo. I took the medicine about one month, and I was completely cured and have remained well. I know of several *cures* made by Koskoo, and can cordially recommend it as a good medicine.

JOHN H. BAKER.

From Mr. Womble, a prominent hardware merchant of Norfolk:

No. 13 MARKET SQUARE,
Norfolk, Va., Oct. 23, 1869

DR. LAWRENCE—Dear Sir: To the large number of testimonials which you offer of the great efficacy of your Koskoo, I take pleasure in adding my own. I suffered greatly with Nervous Debility, Headache, Loss of Appetite, &c. Two bottles of KOSKOO RESTORED ME TO HEALTH.

Yours, truly,

J. G. WOMBLE.

From Rev. W. H. Christian, Pastor Dinwiddie Street Methodist Church:

PORTSMOUTH, Va., October 25, 1869.

This is to certify that I know Dr. Lawrence well. He is a gentleman of cultivation, and worthy the fullest confidence. I have used his "Koskoo" with advantage to myself, and have adopted its use in my family in cases of nervous debility and depression.

PROSPECTUS

OF THE

"PRIMITIVE BAPTIST."

WE PROPOSE TO RENEW THE PUBLICation of the *"PRIMITIVE BAPTIST"* upon the following terms, commencing, if we shall receive sufficient encouragement, in the month of JANUARY, 1870:

The *"Primitive Baptist"* will be published semi-monthly on every Thursday before the second and fourth Sundays in each month, twenty-four numbers constituting a volume, for One Dollar and Fifty Cents in green backs, or One Dollar in gold payable in all cases, in advance.

All moneys sent to us, properly mailed, are at our risk.

Any person furnishing us a club of five subscribers shall be entitled to six copies, and for two or more clubs, the same rates.

Those belonging to the old Baptist Church who desire the *Primitive*, and feel unable to pay for it, by informing us of the fact, shall have the paper sent to them gratis.

All Editors of newspapers in different States, who will give this Prospectus an insertion in their respective papers, will confer a favor upon us, and will receive our sincere thanks.

Persons who are willing to act as Agents for the paper, will please inform us.

We earnestly solicit contributions to the columns of the *Primitive Baptist* from the brethren and sisters who feel disposed to write.

To defend Gospel Truth, and the keeping separate Church and State in matters of religion, is our motto, but protect all.

The *Primitive Baptist* will be published in pamphlet form of 16 large pages of reading matter. We may reserve a few columns for a list of Agents, and for the insertion of interesting news deaths and marriages.

Editors of religious papers are respectfully requested to publish this Prospectus as a favor.

Persons who wish to become subscribers, are requested to send their names without delay but are requested not to send the money until they receive the first number.

All letters must be addressed particularly to

It affords me great pleasure to bestow on them my heartiest commendation. They are vastly superior to any other books of the kind I have yet seen.—W. H. WEATHERLY, Prin. Class. and Math. School, Elizabeth City, Oct. 25, 1869.

Send me ten Davies' Intellectual Arithmetics for introduction. They are superior to any I have seen.—W. F. ENGLISH, Mount Olive, Oct. 20, 1869.

I intend using the same books in my school as those used in the Common Schools. * * I am already using Monteith's Geographies.—JOHN D. JOHNSON, Yadkinville, Sept. 28, 1869.

I am and have ever been an earnest advocate of uniformity in school books. The Board recommendations—Arithmetics and Geographies—are the best that could have been made.—H. H. SMITH, Lincolnton, Sept. 28th, 1869.

Because these books are adopted by the State Board, as well as for the merits of the books themselves, we wish to introduce them, and use them exclusively in our school.—Rev. S. C. ALEXANDER, CHARLOTTE, Oct. 11, 1869.

Steele's "Nat. Philosophy" received. Am struck with its superiority to the other in many respects. As a class is waiting, substitute in my school Steele's Philosophy for first introduction.—G. W. JEWETT, Wilmington, Oct. 13, 1869.

Davies' Mathematics was adopted by me in 1855, and up to this time I have examined no work superior to them. I have examined McNally's Geography and Peck's Ganot's Natural Philosophy. I consider them most excellent works and shall put them into my boys' hands at the earliest period.—J. E. DUDGEN, Prin. Male Academy, Warrenton.

It is my purpose to introduce Monteith's (No. 4) into my school. I give it the preference for the information which it gives on the subject of Physical Geography. The maps and questions in both works (Monteith and McNally) seem to me to be admirable.—Rev. ALBERT SMEDES, D.D., Rector of St. Mary's, Raleigh.

The system of Geography—Monteith and McNally—I am well pleased with.—Rev. WM. S. LACY, Raleigh.

Davies' Arithmetics, Monteith's Geographies and the National Readers are too well known to require a word from me. Monteith and Davies are the best that I am acquainted with.—Prof. DAVID VAUGHAN, Elizabeth City, Oct. 11, 1869.

I have waited patiently for the adoption by the Board of Education of this State of the books to be used in the public schools, and am much pleased to find that so many have been selected from the National Series.—Rev. W. L. MULLEN, Charlotte, Oct. 1, 1869.

I am much pleased with both the Spellers and all the readers; and as to the Series of Geographies, I have long used no others when these could be obtained.—Dr. WM. B. HANKEL, Prin. High School, Snow Hill.

The introduction of so much valuable matter on the subjects of Physical Geography and Geology, and in a form so simple and intelligible makes it, (Monteith's Intermediate Geography) in my judgment, a charming school book.—Col. WM. BINGHAM, Prin. Bingham School.

I design introducing McNally's Geography and Davies' University Arithmetic.—Dr. CLOSS, Prin. Durham Academy.

Will introduce the University Arithmetic next term. An admirable work.—M. L. LITTLE, Prin. Pleasant Hill Seminary, Newton.

Monteith's Geographies are excellent works, and I shall introduce them into my school.—STRONGS IVEY, Prin. Auburn Academy.

The superior and durable style of binding of your works is a very great recommendation—one with which I have long been favorably impressed.—Prof. WM. A. OBENCHAIN, late Hillsboro' Military Academy.

I have introduced your National Series of Readers. We find them to be excellent, just suited to our purpose. With Davies' Mathematical series we have been long familiar, and can find no good reason for changing them. In the Primary Department we have Monteith's Geographies.—Rev. G. D. BERNHEIM, Prin. Female Seminary, Mount Pleasant.

The National Series of Readers and Spellers are the best with which I am acquainted. I shall henceforth use no others in my school. I use Davies. I consider his works incomparably superior in many respects. Monteith's Series afford a gradual but thorough and systematic progression.—Prof. Jos. H. FOY, President Stantonsburg Scientific High School.

I regard Monteith's Physical and Intermediate Geography as one of the best books of its kind. It has several points of superiority over most primary Geographies; Geography is here treated from the only true and rational standpoint, viz: of Geology and Physical Geography.—Prof. W. C. KERR, State Geologist of North Carolina.

Mr. Taylor Johnson Olive's Chapel, has introduced the National Readers, Monteith's Geographies, Davies' Arithmetics, Clark's Grammar, etc.; Mr. John Franks, Grove P. O., has introduced the National Series throughout; Mr. W. A. Branch, New Hill P. O., uses the National Series throughout; Mr. Adolphus Rogers, Green Level P. O., uses the National Reader, Copy Books, Monteith's Geographies, and York's Grammar; Mrs. Emma Bingham, Cary P. O., uses the National Series; Mr. H. C. Olive, New Hill P. O., introduced Monteith's Geographies. There are now at least 250 pupils in Wake and Chatham counties who are daily using the National series of books, within my knowledge.—From W. H. MEBANE, Chatham county, Sept 18, 1869.

I am glad to learn that some of your books are to be introduced into our State schools.—Prof. J. M. M. CALDWELL, Greensboro' High school, Oct. 23, 1869.

Distinguished Editors and Critics Praise Them.

The Series must prove acceptable. The structure of language is beautifully exhibited.—Fayetteville *Presbyterian.*

This firm will allow no competition in the price of books published by them which are among the best in the State.—Statesville *American*, 1865.

Have a reputation for merit unsurpassed.—Statesville *American*, 1869.

Peculiarly adapted to supply the wants we have long felt.—Greensboro' *Patriot.*

Have acknowledged superiority by the most competent judges.—Western *Sentinel.*

Davies is excellent in the first degree.—Wadesboro *Argus.*

Are excelled by none of the many used, and they are superior to most of them.—Newbern *Journal of Commerce.*

When we examine the bright pages of the National Series, and think how we groped along the dry and uninteresting "task" of our boyhood, we are constrained to be envious of the happy pupils of the present.—Wilmington *Post.*

The National Series has attained probably a higher reputation than any other complete series of School Books now in existence.—Wilmington *Herald.*

And $5,000 ready to pay a loss of No. 34,161, so soon as the party authorized to receive the money appears.

The Company has been well tested throughout the State, as to its promptness in paying her losses, reliability, &c.

DIVIDENDS PAID AT THE END OF THE FIRST YEAR, AND ANNUALLY THEREAFTER.

Its ratio of expense to income is extremely low. This may be seen by reference to the Official Reports for 1868. For example:

EXPENSE ON THE $100 RECEIVED.

KNICKERBOCKER,	$16.54
EQUITABLE,	17.44
NORTH AMERICA,	21.16
BROOKLYN,	21.09
UNIVERSAL,	27.24
JOHN HANCOCK,	18.27
THE NATIONAL,	63.48
THE ÆTNA,	13.41

It has an IMPORTANT NEW FEATURE that has been copy-righted. According to this plan the rates are MUCH LOWER than in any other Company in the world.

Its ratio of Mortality is low. Its rates are very low. Its expenses are very low. Its dividends are large.

It insured more lives in the City of New York in 1868, than any other Company, except one. It issued more Policies in the United States than any other save one. It insured more lives in Canada than any other Company, British or American.

To see what the HIGHEST INSURANCE AUTHORITY in this country says. In the June number of the *Insurance Times, of New York*, the following opinion was expressed:

"If there is any great benefit in mutual association, any great advantage to be derived from scientific organization and a chartered source, tending to mitigate the sufferings, lessen the privations, and add to the peace, security, and happiness of humanity, we are prepared to show that these blessings flow, in all their fullness and purity, from this excellent, powerful, and flourishing Company, the ÆTNA LIFE, of Hartford."

"No institution has brought more prompt, full, and grateful relief to the hearths of the bereaved and desolate, and none has been more uniformly distinguished for the enterprise, wisdom, and equitable liberality with which it has fulfilled the purposes of its formation."

"Its success has been almost unbounded and beyond all precedent. Eight years ago, in 1861, it issued only 589 policies, received an income of seventy-eight thousand dollars, and possessed net assets summing up to something over two hundred and eighty-one thousand dollars; but last year, 1868, it granted 13,357 new policies, more than any other Company, except the Mutual Life; received an income exceeding six million dollars, and had amassed solid, securely and profitably invested net assets amounting to over Ten Million Three Hundred and Fifty Thousand Dollars. And this wonderful ratio of growth has been sustained in 1869."
